

What is the Poison Graphene Oxide Doing in Covid-19 Vaccines?

And why are the makers telling us it isn't there? Here is the evidence (1) That Covid vaccines contain graphene oxide, and (2) That it causes the symptoms that have been attributed to "Covid-19 infection".

June 24th, 2021

Scientists from La Quinta Columna in Spain analysed vials of Covid-19 vaccines and published photographs of the contents they found. The left-hand photo showed the vaccine sample, which looked identical to the stock photo of graphene nano-particles on the right-hand side.

www.orwell.city/2021/06/graphene-oxide-in-vaccination-vials.html

June 26th, 2021

La Quinta Columna warned that graphene oxide is also being introduced into the body with face masks and test swabs.

www.orwell.city/2021/06/covid-19-is-caused-by-graphene-oxide.html

June 27th, 2021

Argentine geneticist Dr. Luis Marcelo Martinez said: "Spike protein is nothing more than graphene inside your body and 'spiking' you. The graphene generates systemic inflammation with cytokine storm, blood clots and lung involvement. What's all that? Well, that is the picture ... called COVID."

July 3rd, 2021

Dr Ricardo Delgado, speaking on a Spanish talk show: "In the vaccines we found a small trace of RNA that is not the main component. 98% to 99% of the vial is in fact graphene oxide."

July 6th, 2021

La Quinta Columna announced that they had now also found graphene oxide in Astra Zeneca vaccine vials.

July 24th, 2022

Investigators reveal that a patent (KR20210028062A) for physiological saline used in many vaccines, already contains graphene oxide, and has existed since 2012. This raises the possibility that we're not only talking about anti-COVID vaccines containing graphene, but probably also vaccines for flu, tetanus, diphtheria, meningitis, etc.

August 11th 2021

Reuters Fact-Checkers stated: "Pfizer and Moderna told Reuters ... that graphene oxide is not among their vaccines' ingredients." (The chairman of Reuters sits on the Pfizer board of directors.)

September 20th, 2021

Institute of Pathology in Reutlingen Press Conference, Part 2, Undeclared substances in covid vaccines. Participants: Prof. Dr. Arne Burckhardt, Prof. Dr. Walter Lang, Dr. Maria Hubmer-Mogg, Dr. Uta Langer, Dr. med. Axel Bolland, Dr. Michael Dykta, Attorney Viviane Fischer, Attorney Holger Fischer, Attorney Elmar Becker. The group shows microscopic photos and videos of contaminants in various different covid vaccines including some that look like microchips, some that contain chromium, nickel, or iron, some that look like fibres, and some that make cracked patterns with many tiny dots when dry. It is not known what any of these particles are or why they are in the vaccines. The group emphasized that any food or drug that showed this kind of contamination and were not listed as ingredients would normally be pulled off the market. Why didn't this happen?

November 28th, 2021

Europe's leading carbon expert, Dr Andreas Noack, reports finding graphene hydroxide (=reduced graphene oxide or rGO) in Covid vaccines. He describes them as nanoscale razor blades which cut up the blood vessels little by little. Dr Noack passed away shortly after making this finding. He was a noted expert in this field.

Graphene found in AstraZeneca, Sinovac, and Pfizer vials distributed in Chile.

www.orwell.city/2021/12/chile.html

December 17th, 2021

Vaccine vial analysis carried out in Chilean independent lab. Graphene found in AstraZeneca, Pfizer, and Sinovac vials.

Dr Delgado: "We discovered nano-wifi routers and nano-antennas in the vaccines. Graphenes aids their self-assembly. We watched it happen. This is why most inoculated people are emitting a MAC address, as seen in Bluetooth wireless technology."

www.orwell.city/2021/12/analysis.html

January 6th, 2022

Drs Sevillano and Delgado explain how graphene is causing the deaths of soccer players and other athletes. "Graphene is a superconductor. It's going to have affinity in areas where there's greater electrical conductivity, so once inside the body, graphene goes to the heart, because that's where the highest electrical activity is found."

January 16th, 2022

Argentina's National Administration of Drugs, Foods and Medical Devices (ANMAT) admits that vaccines contain graphene. In a legal case involving a post-vaccine death, they were forced by the prosecutor Carlos Insaurralde to admit the inadmissible. ANMAT ended up admitting that the vaccine they are injecting in the entire population contains graphene.

Many investigators are concerned that the Covid-19 virus has never been isolated.

July 18th, 2021

Geneticist Dr. Luis Marcelo Martínez explains why there's no concrete evidence that SARS-CoV-2 exists. He says: "The only thing they've done is to sequence genetic information coming from multiple origins – a culture soup. I invite anyone, anywhere, to show me a purified virus and animal tests with that virus. The Covid-19 virus is fake. The variants are nonsense because all the clinical pictures are the same. It's the same flu, same pneumonia. They have been creating variants using computer programs. It's that easy."

www.orwell.city/2021/07/SARS-CoV-2-has-not-been-isolated.html

July 30th, 2021

Dr. Martín Monteverde in Argentina asked several governments whether they had isolated the Covid-19 virus and they said they had not. "The whole pandemic appears to be based on the PCR test. The mainstream media are using the test to tell us that there are dead and infected people and that there is another wave and another variant." The Argentine Health Minister was asked if the test is actually finding the virus when you are told that you tested positive. The minister answered "No. The PCR finds a little piece of the virus – approximately 37 base pairs of DNA or RNA." The supposed genome of the virus has 37,000 pairs. How can they tell you that you got a positive result when they have only found 37 pairs?

THE TOXICITY OF GRAPHENE OXIDE

The Spanish scientists found vaccine vials with a 98 per cent graphene oxide content. Graphene is only one atom in thickness. It is very easy to inject.

Studies have shown that administration of graphene oxide (GO) into the trachea of mice caused fibrosis (scarring) to develop in lung tissue. GO increased the generation of reactive oxygen species, activating inflammatory and apoptotic (cell destruction) pathways. GO, after entering the body by intravenous injection, can be retained in the lung and induce the formation of granulomas (inflammatory masses) and pulmonary edema. Inhaled GO can destroy the ultrastructure and biophysical properties of the protective pulmonary surfactant film. Intravenous administration of GO caused massive pulmonary thromboembolism in mice. Direct administration of GO into the lungs of mice resulted in severe and chronic lung damage. GO disrupted the alveolar-capillary barrier, allowing inflammatory cells to infiltrate the lungs and stimulate the release of proinflammatory cytokines. Amrollahi et al. studied the toxicity of GO in rats and showed that GO has a toxic effect on nerve tissue. Microscopic sections when analysed revealed that the cerebral and cerebellar cortex's specific neuronal (nerve) cells showed degeneration and necrosis (death). Bleeding in brain tissue was observed in animals with GO poisoning, as well as a significant change in locomotor behavior markers, such as speed, acceleration, and stopping time*. Studies have also shown that GO is capable of inducing genotoxicity. Liu and colleagues found that GO induced mutagenesis at the molecular level. Once GO penetrates the cell, it can destroy high amounts of lipid membrane phospholipids and induce cell membrane degradation. The generation of ROS and oxidative stress in cells treated with GO leads to mitochondrial dysfunction, DNA damage, inflammatory reactions, cell death, and necrosis. Sanchez VC, Jachak A, Hurt RH, Kane AB. Biological interactions of graphene-family nanomaterials: an interdisciplinary review. *Chem Res Toxicol.* 2012;25(1):15-34. www.ncbi.nlm.nih.gov/pmc/articles/PMC8213470/

***Knowing this, do you really want to be in an aircraft with a vaxxed pilot or be operated on by a vaxxed surgeon?**

As we know, all the above symptoms are found in individuals with "Covid-19 infection". So,

1. If graphene is in the vaccine vials, and is capable of causing these symptoms,
2. The "virus" has never been isolated, and
3. The inventor of the PCR test has repeatedly said that it cannot be used as a diagnostic tool,

... WHY ARE THEY STILL INJECTING US?

Maybe your family is "all right Jack" for now, but for how much longer? Many people are calling it the DeathVax.

Statement from a nurse

"Among all the vaccines I have known in my life (diphtheria, tetanus, measles, rubella, chickenpox, hepatitis, meningitis and tuberculosis, flu and pneumonia) I have never seen a vaccine that forced me to wear a mask and maintain my social distance, even when you are fully vaccinated. I had never heard of a vaccine that spreads the virus even after vaccination. I had never heard of rewards, discounts, incentives to get vaccinated. I never saw discrimination for those who didn't. If you haven't been vaccinated no one has tried to make you feel like a bad person. I have never seen a vaccine that threatens the relationship between family, colleagues and friends. I have never seen a vaccine used to threaten livelihoods, work or school. I have never seen a vaccine that would allow a 12-year-old to override parental consent. After all the vaccines I listed above, I have never seen a vaccine like this one, which discriminates, divides and judges society as it is. And as the social fabric tightens... It's a powerful vaccine! It does all these things except IMMUNIZATION. If we still need a booster dose after we are fully vaccinated, and we still need to get a negative test after we are fully vaccinated, and we still need to wear a mask after we are fully vaccinated, and still be hospitalized after we have been fully vaccinated, it will likely come to "It's time for us to admit that we've been completely deceived."

According to Facebook's experts, the above statement is false information.

Maybe because we now take our orders from the World Health Organization?

HOW THE WORLD HEALTH ORGANIZATION HAS CHANGED

Dr Astrid Stuckelberger, former WHO employee describes how the World Health Organization is no longer a democratic membership organization. It is run like a totalitarian corporate entity and is funded by corporate money. Yet all the world's governments do what it tells them, even when the instructions go against every established medical protocol as they are doing now.

CRIMINAL ACTIONS

Despite what Google will tell you, the Metropolitan police are still gathering evidence to obtain criminal convictions for all those who are allowing the deaths and injuries to continue. Everybody who is complicit in concealing knowledge of criminal acts, or who is spreading propaganda which results in the death or injury of an individual, will face criminal charges, and this includes officials, politicians, medical personnel and media. Solicitors Phillip Hyland and Lois Bayliss have put all of Britain's media on notice.
